Brick Breakout Instructions:

The objective of Brick Breakout is to destroy as many bricks as you can. You can use the left and right arrow keys to control the paddle in order to keep the ball from going past the bottom of the screen, in which case you will lose one of your three lives. Hitting a blue brick counts as one point, hitting a green brick counts as two points, and hitting a red brick counts as three points. If you clear all the bricks from the screen, you will enter the next level and all the bricks will reappear, as well as a faster ball. When you finally use up all your lives, the game will end and your final score will be displayed.
